Q: C: How to read exactly one line from an input file? How do I read one line from an input file using C? I am using c++ in Qt Creator. A: Getline() is what you are looking for. `char line[100]; ifstream file("input.txt"); if(!file.is_open()) return false; file.getline(line,100);` You may need to use `char *` if you want to read more than one line. `char *p; p = new char[100]; file.getline(`
